MHA Student Success Stories

Hear From Our MHA Students & Alumni

Our students say it best: UCLA Fielding provides a supportive community, standout program quality and career-long connections.

BB

Many of us pursue master's programs as a way to advance and stand out. As soon as I joined this program and told people I was now a UCLA master's student in healthcare, that really changed things. My peers looked at me differently, and my direct leadership got more involved in helping me take on new projects."

Henry Phan, Program Manager at Providence St. Mary Medical Center, UCLA MHA student

BB

Interacting with my peers, faculty and alumni from the program has really opened my eyes to the culture of openness and the nurturing behavior of the faculty. They really want you to grow, and they are willing to go out of their way to connect you with someone who is able to get you to where you want to be in the future."

Jamie Pham, Internal Auditor at Children's Hospital Los Angeles, UCLA MHA alum
